What's our Mission

Our mission is to create a platform for Hyperliquid builders, traders, and enthusiasts in Malaysia to connect and engage in meaningful conversations about all things Hyperliquid. We hope the connections and discussions you have today will spark future collaborations.

We also aim to amplify Hyperliquid’s vision of becoming the blockchain that houses all of finance; educating and showcasing more on-chain opportunities for everyone.

Try Pitch

What is Hyperliquid?

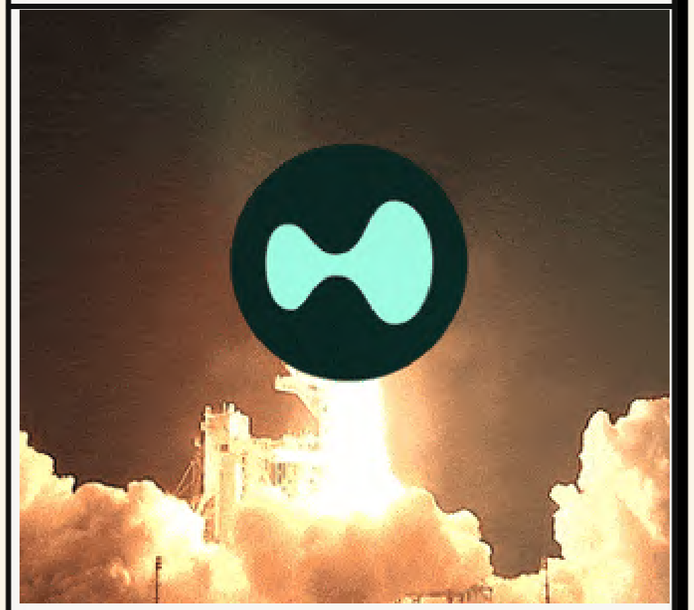

The Blockchain to House All Finance

Hyperliquid is a performant blockchain built with the vision of a fully onchain open financial system

Try Pitch

Community first ethos…

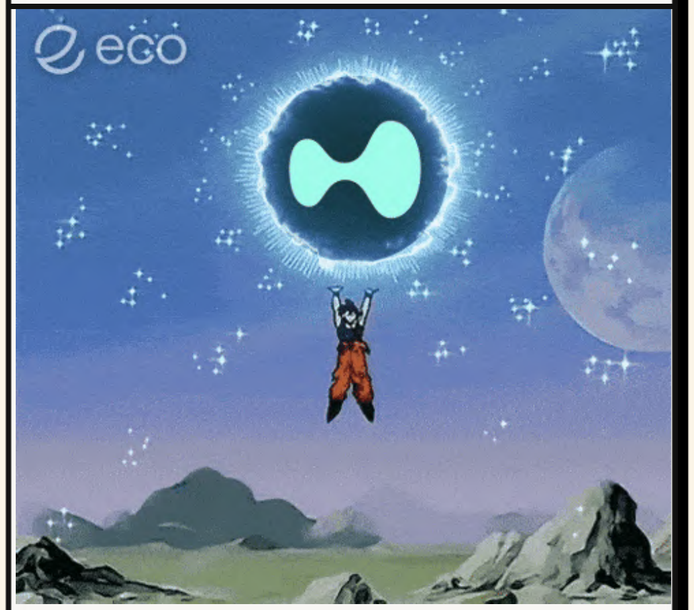

NO VC

Hyperliquid team are fully focused on building the product. that they envision

NO INSIDER

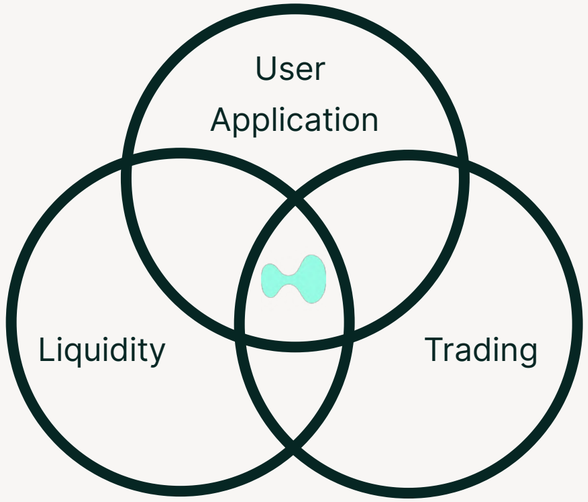

No shady backroom deals - All projects and teams gets the same treatment

For the Community

~70% of the token supply is allocated to the community

Try Pitch

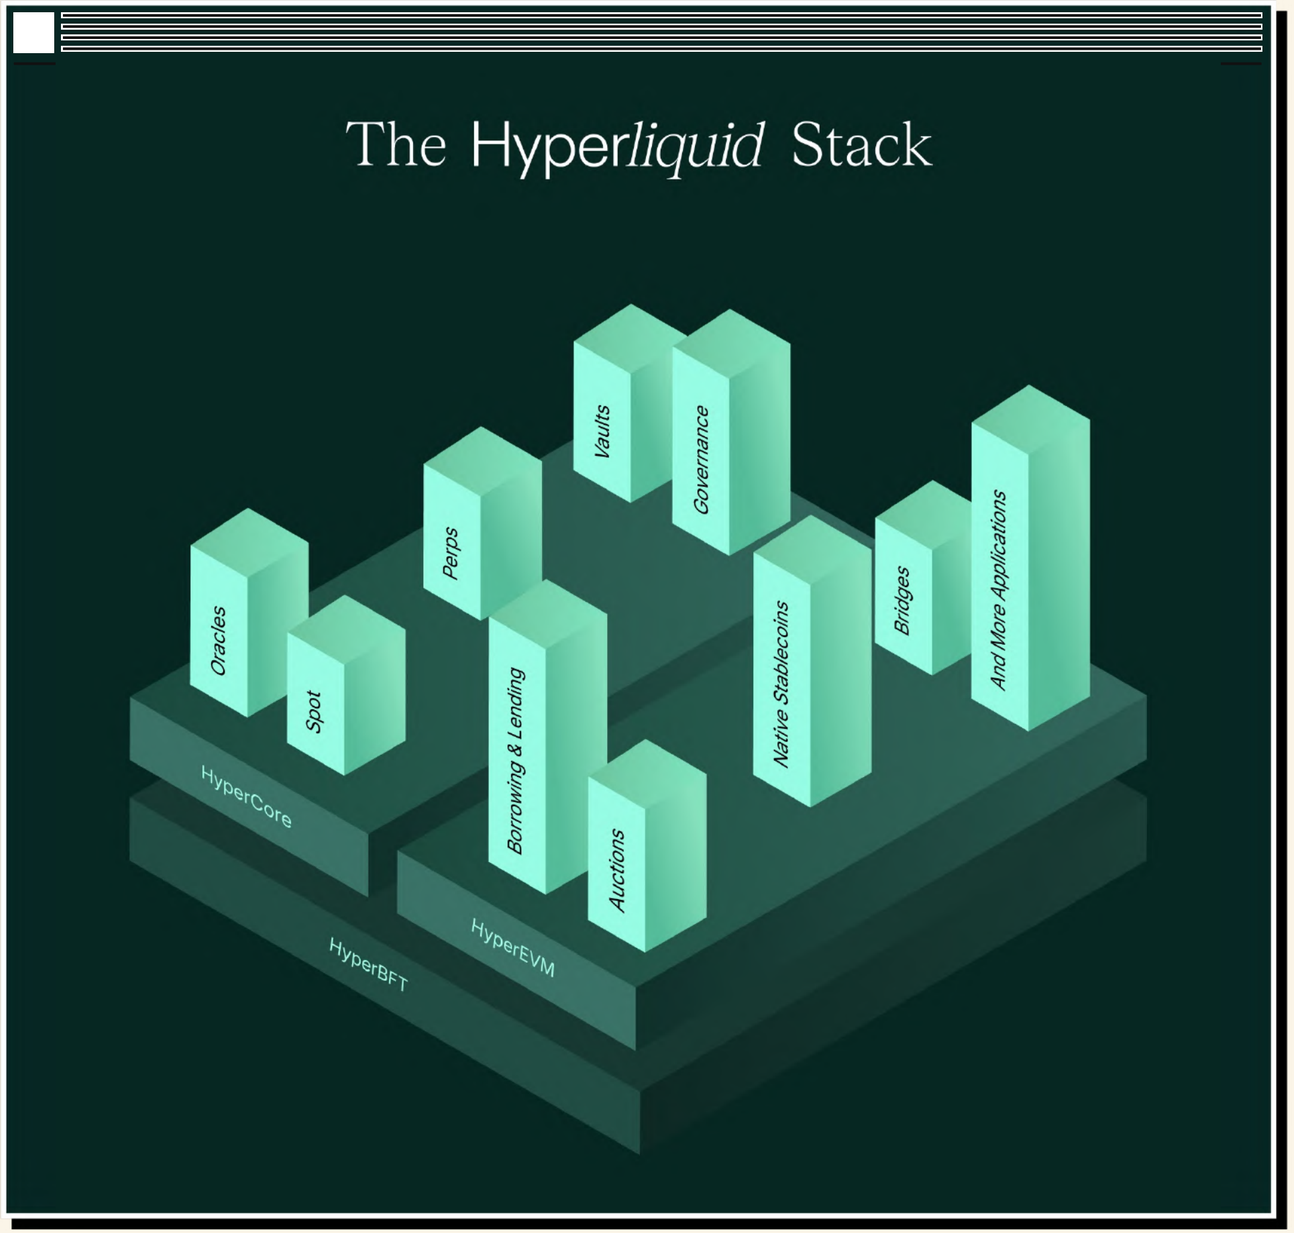

Hyperliquid's Execution Layer

HyperCore - A fully on-chain order book exchange DEX, flagship app of Hyperliquid

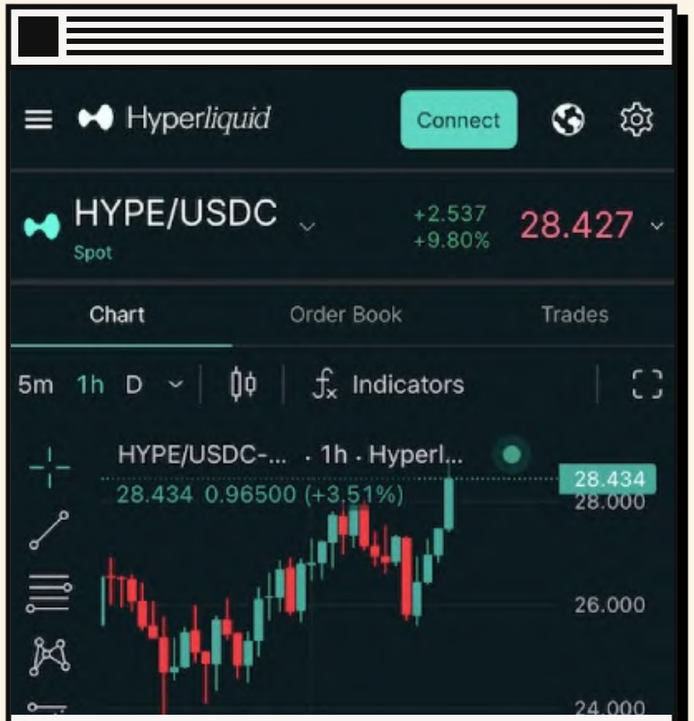

HyperEVM - an EVM-compatible layer enabling general purpose dApps on Hyperliquid

HyperBFT - Hyperliquid's unified consensus protocol, which secures both Hypercore and HyperEVM

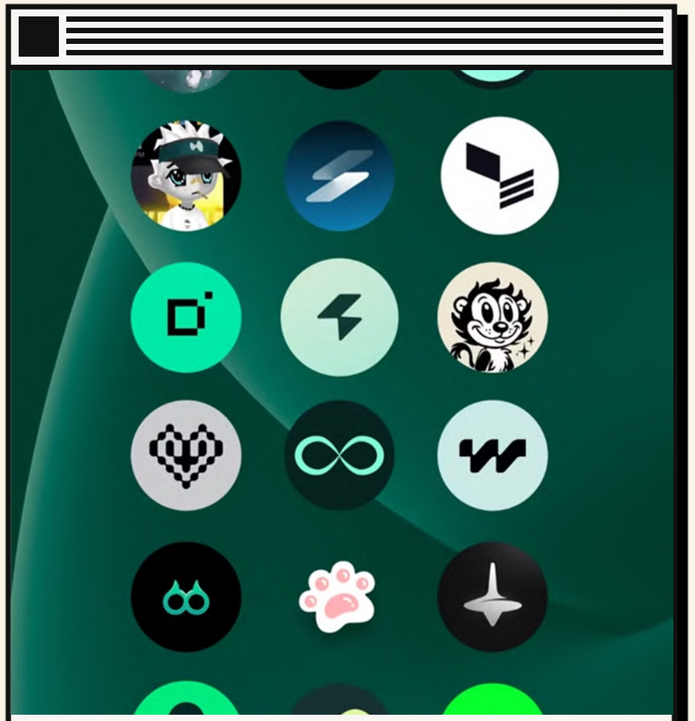

Try Pitch

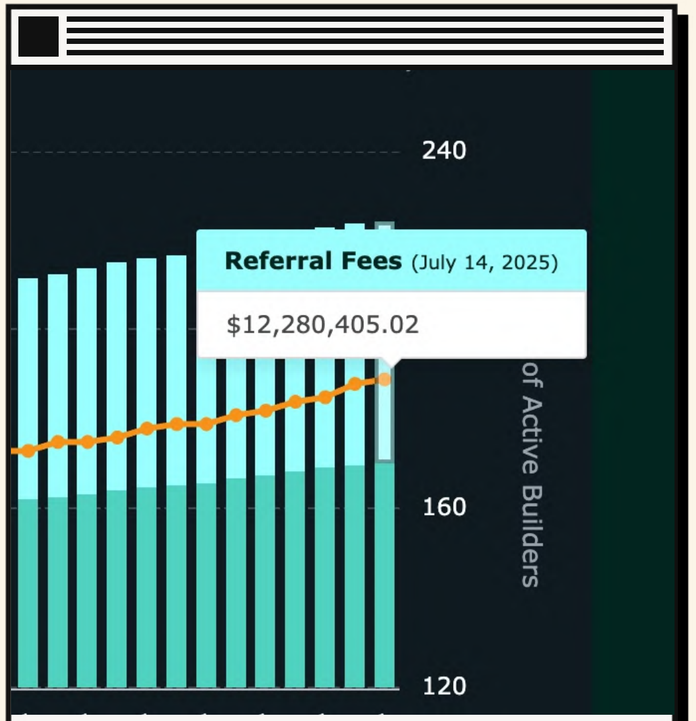

What can you do on Hyperliquid?

Spot + Perp's Trading

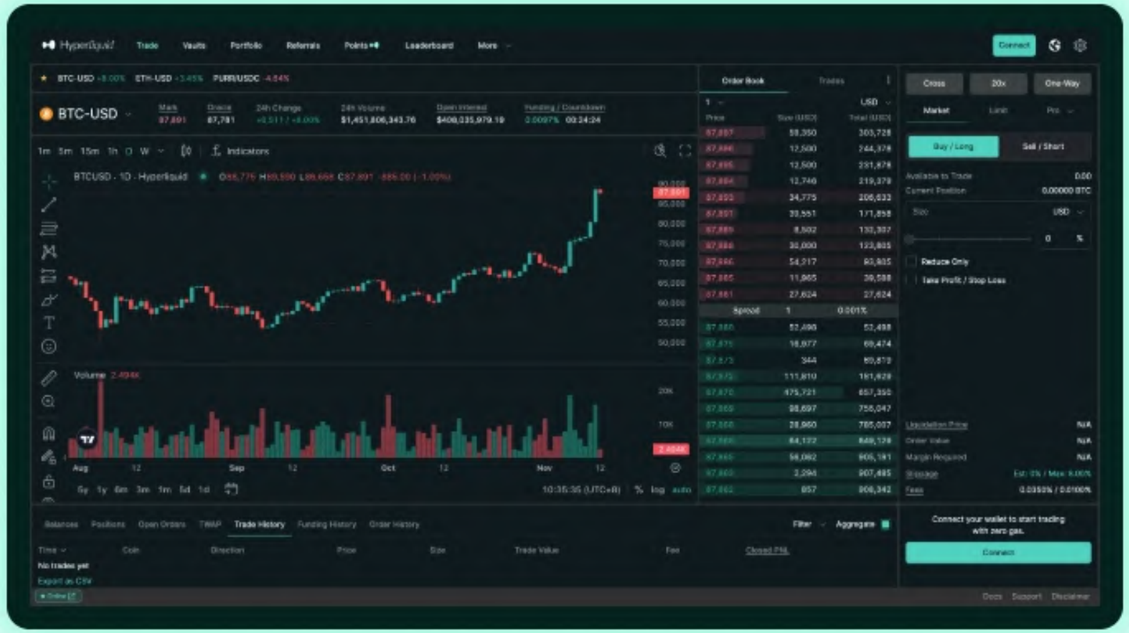

HyperEVM DeFi activities

(For Devs) Builder's Code for Revenue Sharing

Try Pitch

The flagship application: the premier DECENTRALISED DECENTRALISED exchange

Low fees

Zero gas and low fees on all orders.

Up to 40x leverage

Trade with conviction to maximize capital efficiency.

Transparent

Fully onchain order book. Trades, funding, and liquidations all happen on the Hyperliquid L1.

Seamless

One-click trading. No wallet approvals to interrupt your flow.

Try Pitch

This community-owned vault provides liquidity to Hyperliquid through multiple market making strategies, performs liquidations, and accrues platform fees.

Try Pitch

Staking

The Hyperliquid L1 is a proof-of-stake blockchain where stakers delegate the native token HYPE to validators to earn staking rewards. Stakers only receive rewards when the validator successfully participates in consensus, so stakers should only delegate to reputable and trusted validators.
