USDH

- Hyperliquid announced plans to launch a HL-first, HL-aligned and compliant stablecoin ($USDH)
- Proposals from major projects e.g. Paxos, Native Markets, Sky, Ethena, etc. came in with pros and cons for both
- Circle then announced the upcoming integration of native USDC and its Cross-Chain Transfer Protocol (CCTP) on Hyperliquid
- On-chain validator vote taking place on **14th September**
